## EMF (ELECTROMAGNETIC FIELD) PROTECTION NECKLACES

The Amethyst, Chrysocolla, Sodalite and Citrine crystal beads in these necklaces were specifically programmed by Aaron and Sue Singleton's Net-Neutral Ion Generator to not only withstand, but break up and release Electro-Magnetic Frequency (EMF) residues from the body, to create a protective barrier around the wearer.

This all-natural process helps lessen the EMF load on your body from devices you commonly come into contact with, and helps clear existing EMF residues.

Due to natural and beautiful variations in the sizes, shapes and color of the crystals, each handcrafted necklace is one-of-a-kind. **SIZE:** All necklaces are approx. 17-18" in length. **PRICE: \$89 ea.**
